---

I'm an enthusiastic software engineer with experience in JavaScript technologies (MERN stack: MongoDB, Express.js, React.js, Node.js), as well as Python / Django / PostgreSQL. As a seasoned start-up founder, I'm skilled at combining technical and people expertise with business acumen to identify and solve problems. I understand how to deliver a functional and good-looking product on time. I thrive in dynamic environments, and am a supportive and thoughtful team-member. I'm looking to join a company where I can make a long-lasting impact.

### SKILLS

**Languages** - JavaScript, HTML, CSS, Python, SQL, Mongo, JSON, EJS, DTL | **Database** - PostgreSQL, MongoDB

**Libraries and Frameworks** - Next.js, React, Express.js, Django, Bootstrap, Semantic UI, TailwindCSS, Bulma, Flask |

**Other** - RESTful Routing, JSON api

**Interpersonal Skills** - Student mindset, highly collaborative, strong written and verbal communicator, empathy for all

### SOFTWARE DEVELOPMENT PROJECTS

**CSS Clips** ([repo](#) | [deploy](#)) | *a full-stack Django app to discover + create simple, vanilla HTML/CSS animations* **02/2023**

- Front end rendered using **Django** Templates and, styled with **Bulma** CSS.
- **Python** API back end, with full CRUD functionality to a **SQL** database on **Heroku**.
- Multiple related models (Clips, Users, Tags) interact and render conditionally.
- Implemented User Authentication through Django's built-in system.

**ShoeString** ([frontend](#) | [backend](#)) | *a full-stack social app to share posts of travels around Planet Earth* **01/2023**

- Full create, read, update, delete (CRUD) operations hitting all **RESTful API** calls.
- Created front-end application in **Next.js** with a mobile-first approach, styled using **CSS3** and **TailwindCSS**.
- Made RESTful API fetch calls to an **Express, MongoDB, Node.js** backend handling all CRUD operations.
- Used Mongoose to define schemas for **MongoDB** collections.
- Paired programming with a fellow developer, using Trello, Figma, LucidChart, and Miro for planning and project management.

**Brewery Buddy** ([frontend](#)) | *a front-end app to search for breweries around the US using the Open Brewery API* **12/2022**

- Utilized **React.js, React-Leaflet, CSS, Javascript, HTML/CSS, and OpenStreetMap** to create a fully functional app that displays API data in an easy to read way.
- Collaborated with a fellow engineer over a 1 week sprint. Lead development of site architecture, site design, utilization of React-Leaflet and OpenStreetMap, and site styling.
- Engaged in daily stand-ups, worked on separate tickets, co-coding on blockers, and team-style git management using **GitHub**.

### PROFESSIONAL EXPERIENCE

**Sr. Manager of Community Sourcing and Development** - [Alfred](#) | New York, NY **05/2021 - 06/2022**

- Developed and implemented a company process for sourcing, hiring, and on-boarding a large volume of contractors for events.
- Supervised 100+ contractors in nine US cities, maintaining a 90% service quality rating with customers.
- Coordinated with the Sales Team to anticipate hiring needs based on pipeline contract proposals.

**Chief of People, Programming, and Philosophy / Co-Founder** - [HOM](#) | New York, NY **04/2014 - 05/2021**

- Grew to \$3M annual recurring revenue with 2 co-founders; lead development of Product, People, training, and culture.
- Achieved profitability, acquired by Alfred ([helloalfred.com](http://helloalfred.com)) in May 2021.
- Operated digital and in-person events + fitness services for real estate management companies at 200 buildings in NYC.

**Director of Customer Experience (contract)** - [The Open Center](#) | New York, NY **01/2021 - 06/2021**

- Project managed the company's transition to a modern Wordpress site for managing online course bookings.
- Developed a detailed process map for all company operations, presented to the executive team with recommendations for optimization.

### EDUCATION

[GENERAL ASSEMBLY](#) | REMOTE

*Software Engineering Immersive*

**10/2022 - 02/2023**

Full-stack software engineering immersive student in an intensive, twelve-week, 450+ hour program focused on product development fundamentals, object-oriented programming, MVC frameworks, data modeling, and team collaboration strategies.

[ELON UNIVERSITY](#) | ELON, NC

**05/2007**

*Bachelor of Fine Arts in Music Theater (cum laude)*
